

Week 1:

Date: 26-02-2024

Task:

Recreate the following webpage with HTML and CSS. The design doesn't need to be functional.

The image shows a login form design. It consists of a white rounded rectangle centered on a light gray background. Inside the rectangle, the word "Login" is written in blue. Below it are two input fields: "Username" and "Password". At the bottom of the rectangle is a blue "Login" button.

For now, we will start with simple webpage designs. As we progress, the UI will become more difficult to recreate, and we will also include functions in the webpages.
